OFFICE OF MANAGEMENT AND BUDGET 600 EAST BOULEVARD AVE — DEPT. 110 BISMARCK, ND 58505-0400

MESSAGE FROM THE DIRECTOR

Office of Management

and Budget

The U.S. Bureau of Economic Analysis (BEA) has released its report on gross domestic product (GDP) by state comparing the first quarter of 2017 to the fourth quarter of 2016. Calling GDP the "most comprehensive measure of economic activity in states", the BEA report shows that real GDP has increased in 43 states and the District of Columbia. North Dakota GDP for all industries, private and government, grew by 1.6 percent at an annualized rate, while its three neighboring states try groups saw decreases in North Dakota compared to nine groups nationally. Not surprisingly, the largest area of decline, both nationally (-39.8 percent) and in North Dakota (-40.4 percent), was in the agriculture, forestry, fishing and hunting category.

A comparison of the first quarter to second quarter of 2017 will be available later this year. Preliminary estimates indicate the second quarter growth for the nation will be 3.0 percent.

saw negative growth of 0.3 Chart 1. Percent Change in Real Gross Domestic Product by State, 2016:IV-2017:I

to 3.8 percent. Nationally. 12 of the 21 private industry groups led to the overall growth in real GDP. In North Dakota 14 private industry groups saw increases. Leading the way in growth for North Dakota was mining with a 16.9 percent growth rate, compared to 21.6 percent at the national level. Other areas with significant growth for North Dakota were information (10.9 percent), transportation and warehousing (8.1 percent), and administrative and waste management services (7.3 percent). Seven private indus-

North Dakota REV-E-NEWS

September 2017

VARIANCES (Compared to 2017 Legislative Forecast)

August 2017 revenues totaled \$137.6 million, which is \$8.4 million, or 6.5 percent above forecast. Biennium-to-date revenues of \$625.7 million are \$9.0 million, or 1.5 percent, more than projected. When transfers from major special funds are excluded, 2017-19 revenues to date are tracking 15.8 percent behind the same time period in the 2015-17 biennium. Significant monthly variances are as follows:

Sales tax collections of \$70.3 million were \$4.5 million, or 6.8 percent, higher than anticipated for the month. Biennium-to-date revenues are 2.5 percent higher than forecast. In a year over year comparison, biennium-to-date revenues are 22.6 percent less than the same time period in Fiscal Year 2016 but only 5.1 percent less than the same time period in Fiscal Year 2017. Individual income tax collections of \$11.6 million were \$3.4 million, or 41.8 percent above forecast, due to strong withholding. Bienniumto-date collections of \$65.3 million are \$2.7 million, or 4.2 percent higher than forecast and \$9.0 million, or 12.1 percent, less than the same time period in the 2015-17 biennium.

• Oil and gas taxes were \$2.8 million lower than the monthly forecast due to low oil prices. However, for purposes of this report, oil tax forecast amounts are shown as being equal to actual collections. For the biennium in total, the general fund share of oil taxes is limited to no more than \$400.0 million. Monthly variances affect the time frame during which the general fund receives its share of oil taxes, but does not impact the total biennial collections.
